

# ARTIFICIAL INTELLIGENCE AND ITS IMPACT ON THE PRACTICE OF LAW

September 11, 2020

## Event Details:

---

**Associate Dominic Cruciani is co-presenting the webinar “Artificial Intelligence and Its Impact on the Practice of Law” with Peter Vogel, Partner at Foley & Lardner LLP for the Dallas Bar Association.**

### **Date/Time:**

Friday, September 11, 2020  
12:00 PM

### **Overview:**

As more lawyers rely on Artificial Intelligence (AI), it is critical that they understand the ethical and legal issues given the how AI is transforming the practice of law in litigation, transactions and legal research. AI programs empower lawyers to deliver higher quality results at lower costs to their clients by implementing concepts such as Machine Learning, Predictive Coding, Data Mining and Natural Language Processing. AI driven programs and applications are already utilizing these concepts in key aspects of the legal practice, including eDiscovery, legal research, voir dire, due diligence and many others. This presentation will discuss how crucial AI is for attorneys, law firms and courts.
